**Total: 4 marks**

**Q1 (1 mark)**

*Arrange in correct order from smallest to largest: organ, organism, tissue, cell, organ sy...*

- Cell → tissue → organ → organ system → organism [1]

**Q2 (3 marks)**

*The stomach is an organ. Explain what this means, naming THREE types of tissue it contains...*

- An organ is a group of DIFFERENT tissues working together for a specific function [1]
- Muscle tissue — churns food [1]
- Glandular tissue — secretes enzymes and acid; epithelial tissue — lines the stomach [1] — any 3 tissues, each correctly named
